MEMORANDUM FOR : Director of Central Intelligence

SUBJECT : Major Appointments in the Nixon Administration

1. Reference is made to my memorandum to you, dated 13 December 1968, subject as above. That memorandum, with its listings of appointments, can now be destroyed. The listings attached herewith are complete and current as of this date, except that they do not reflect the appointment of Charles W. Yost as Ambassador to the United Nations. No further appointments are expected to be announced before 1 January.

2. The page on the Cabinet attached herewith has been revised to reflect the appointment of Mr. Whitaker as Secretary to the Cabinet. Other pages reflect changes and deletions from Mr. Ehrlichman's staff and the appointment of Harry Flemming as Special Assistant to the President. Mr. Hoover's reappointment as Director of the FBI is not included in this list, as the list is restricted to appointments in the Executive Office. As further sub-Cabinet positions are announced appropriate listings will be furnished you.
